

PREFACE

This emergency management plan was created by the Emergency Planning Committee of the Eumeralla Scout Camp for its location at 1415 Great Ocean Road Anglesea, Victoria 3230.

The plan is based upon recognised risk management principles and provides the occupants of the site with specific guidance during times of emergency.

This plan relates to all persons, occupants, visitors or contractors working on or visiting this site.

The Emergency Response Plan comprises two separate sections: -

1. Response procedures for Eumeralla Camp staff including structure and operation of the Emergency Control Organisation in the camp.
2. Response procedures for Eumeralla Camp visitors.

Eumeralla Camp staff are provided with detailed response procedures in the event of any emergency. A copy of the procedures can be viewed in the main camp office.

Camp visitors are provided with basic response procedures and information to assist them in the event of any emergency.

INTRODUCTION

Camp Eumeralla is situated 35 Kilometres from Geelong along the Great Ocean Road. Set in 330 acres of beautiful natural bush [recently some parts of the camp reverted back to Parks Victoria control leaving approximately 140 acres under Eumeralla lease], along the Southern Coastline of Victoria.

The site is leased from Department of Environment Land Water and Planning [DELWP] by the Scout Association of Australia (Victoria Branch) and managed by the Eumeralla Camp Management Committee.

The camp is divided into two zones: -

Zone 1

All the main buildings on the site are located here and include the Camp Rangers Accommodation/Office, Troop Hall, Accommodation Huts, Environment Centre, Altona Hut/ Rover Villa, Headquarters Building, The Lodge and several smaller huts.

Zone 2

This includes the bush campsite areas, cleared and wooded, large and small.

POLICY, AIM, AND AUTHORITY

Policy for Emergencies

This emergency management plan is developed in line with Scouts Australia’s Occupational Health and Safety Policies and Procedures and gives consideration to the relevant Victorian Legislation relating to Health and Safety in the Workplace.

This emergency management plan empowers the Camp Ranger and all other members of the ECO to take control in the event of any emergency within these premises and includes

- **Fire** • **Explosion** • **Hazardous Material Spill** • **Gas Leak** •
- Bomb Threat** • **Civil Disturbance** • **Medical Emergency**

Aim of this Plan

To provide a safe and healthy working environment and to be the framework to manage any emergencies that may occur on the site.

This plan relates to all persons, occupants, visitors or contractors working on or visiting this site, who are required to adhere to all requirements relating to Emergency Management and Occupational Health and Safety.

Liability

ECO personnel shall not be held legally liable (including liability for negligence) as a result of any act or omission on their part during the course of an emergency situation.

Authority

This plan is endorsed and empowered by the Eumeralla Camp Commissioner for and on behalf of the Emergency Planning Committee of the Eumeralla Camp Committee of Management.

Authorised by: _____

Implementation date: __05__ / __06__ / __2024__

DISTRIBUTION SCHEDULE

Name	Organisation Position	ECO Position	Date Issued	Receiver's Initials	Date Returned	Issuer's Initials

DEFINITIONS

Term	Description
Emergency	An urgent immediate response to events with the potential to harm people, operations, environment or property.
Emergency Control Organisation (ECO)	The ECO is a structured group, which organises response to emergency situations. It consists of ALL personnel who would be involved in the management of an emergency.
Emergency Management Plan (EMP)	A documented scheme of assigned responsibilities, actions and procedures, required in the event of an emergency.
Emergency Planning Committee (EPC)	Is a committee responsible for: - <ul style="list-style-type: none"> • Establishing and implementing written plans for the management of all emergencies. • Ensuring that personnel are appointed to all ECO positions. • Arranging for the training of all ECO personnel. • Organising the conduction of evacuation exercises. • Reviewing the effectiveness of exercises / procedures and modifying plans accordingly.
Evacuation Assembly Area	An identified area nominated to receive evacuated persons that will reliably provide relative safety for the evacuees.
Emergency Warning Intercom System (EWIS)	A combined emergency warning and intercommunication system for use in emergencies.
Evacuation Point	A point of egress from an area that requires evacuation.
Hazard	A source of potential harm or a situation with a potential to cause loss.
Material Safety Data Sheets (MSDS)	A document that describes the properties and uses of a substance including chemical / physical properties, health hazard information, precautions for use etc.
Risk	The chance of something happening that will have an impact upon objectives. It is measured in terms of consequences and likelihood.

EMERGENCY SITUATIONS

Both Australian Standards AS 3745-1995 and AS 4083-1997 define an emergency as: "Any event that arises internally or from external sources, which may adversely affect the safety of persons in a building or the community generally and requires immediate response by the occupants."

Furthermore, AS 4083-1997 defines colour codes for seven types of emergencies as follows (no other colour codes should be used for emergencies):

- RED = Fire/Smoke
- BLUE = Medical Emergency
- PURPLE = Bomb Threat
- YELLOW = Internal Emergency
- BLACK = Personal Threat
- BROWN = External Emergency
- ORANGE = Evacuation
- **Pandemic** [refer to pandemic management plan as provided by Scouts Victoria]

The "All Clear", (when given), is always broadcast with reference to the particular emergency's colour code. The "All Clear" declaration should only be given by the Camp Ranger after consultation with the emergency services.

The fire services suggest that colour codes should only be used for internal identification of emergencies to reduce the likelihood of irrational behaviour by occupants when emergencies are being announced via EWIS or PA systems. There is no requirement to use these colour codes when notifying emergency services. Generic emergency advice is included within this section, on the following situations:

- Fire or the Threat of Fire
- Hazardous Materials Spills or Other Exposures
- Gas Leakage or Other Noxious Exposure
- Bomb Threats
- Attack by deranged persons or other civil disturbance
- Floods / Severe Storms
- Earthquakes
- Medical Emergency

EMERGENCY PLANNING COMMITTEE / ORGANISATION

The Eumeralla Scout camp is managed by a team of Camp Rangers who live onsite at Eumeralla in two residences: - ○ Stinton Lodge ○ Somers Lodge.

Normally an Emergency Control Organisation operates with a number of personnel filling various roles within the organisation eg Camp Ranger, Assistant Camp Ranger, Communications Officer and First Aid Officer. At Eumeralla, the number of camp personnel on site at any time will depend on a number of factors eg time of year, number of visitors in camp, special events etc. In the event of any emergency, camp personnel on site may have to accept a number of roles in the Emergency organisation structure.

There is an expectation that Scouting or school groups visiting the camp will be under the control of a leader who will manage their individual groups. **ALL** groups or personnel in the camp **WILL** follow the direction of Eumeralla Camp or Emergency Services personnel. Group leaders may be called on to assist as required with an emergency.

Special events at the camp, for example “Surfmoot” have their own Emergency management plan/personnel which will integrate with the Eumeralla Camp Emergency plan.

The Emergency Planning Committee / Organisation for the Eumeralla Scout Camp include the following personnel: -

- ***Eumeralla Camp Rangers Stinton Lodge***
- ***Eumeralla Assistant Camp Rangers Somers Lodge***
- ***Eumeralla Camp Chairperson***
- ***Scouts Victoria***

IDENTIFICATION OF EMERGENCY CONTROL PERSONNEL

Key personnel in the Emergency Control Organisation must be easily identified during an emergency; enabling ready identification by other staff and emergency personnel. Eumeralla camp rangers will coordinate any emergency response and will be identified by the wearing of a **“WHITE HELMET and Hi Visibility Vest”**.

TRAINING OF PERSONNEL

All members of the Emergency Control Organisation will receive training in their respective areas of responsibility.

All staff will be given an awareness of the site's emergency procedures.

All new staff along with contractors and short-term employees will receive instruction in Emergency Evacuation/Response as part of their induction.

EVACUATION DRILLS

Evacuation drills will be conducted every six months or as decided by the ECO.

All personnel in the camp that are present at the time of such drills will participate and will follow directions of the camp/ECO personnel.

On completion of drill a review is to be completed within 2 weeks by ECO and recommendations considered.

VISITORS AND CONTRACTORS

All visitors must report to reception at the main office to advise camp personnel of their business and "sign in" to the visitor's book.

All Staff belonging to the Eumeralla Scout Camp will **NOT BE** required to sign in/out.

All other Scouts Australia personnel **WILL BE** required to sign in/out.

Non Scouts Australia Visitors and contractors **WILL BE** required to sign in/out.

All contactors should be qualified for their particular trade and in receipt of required licences, permits etc prior to commencing a job. Contractors should be given an induction that includes notification of the evacuation procedures and location of toilets etc and should be escorted whilst on site by camp personnel.

FIRST AID

First Aid kits are located in the Rangers Office as well as a Defibrillator with instructions. These devices are registered and their location can be obtained via a 000 call. There is an expectation that all groups will provide their own first aid trained personnel and first aid kit and equipment. Requests for additional First Aiders or equipment should be made through the camp ranger's office.

All camp rangers are trained in Level 2 workplace first aid.

MATERIAL SAFETY DATA SHEET INFORMATION

The quantities of chemical products held on site are below that required for a manifest. No HAZCHEM signage or placarding is required under the revised requirements of the *Dangerous Goods (Storage and Handling) Regulations 2000*.

A register containing a full list of all chemicals /materials together with Material Safety Data Sheets (MSDS) for all products is held on site.

The master list is located in the main office, together with a copy which is included in the Emergency Response folder.

MSDS's are also located at all locations where the chemicals are stored/used.

MONITORING AND ALERTING OF EMERGENCIES

During periods of hot dry conditions or on days of Severe, Extreme or Code Red, Rangers shall monitor Bureau of Meteorology website on forecast conditions and for any warnings transmitted on the CFA app.

Personnel at the Eumeralla Scout Camp will be alerted of emergencies in the first instance by a text message to the group leader contact shown on Booking Form or their representative [a response **MUST** be received], by an audible siren from either the camp ranger's office or the mobile siren in the camp ranger's utility.

Personnel will be instructed of actions to be taken by either emergency personal, the camp ranger or in their absence the assistant camp ranger.

If this fails all camp guests are to follow the direction of the camp/group leaders.

EMERGENCY ASSEMBLY AREAS

On hearing the emergency signal **ALL** persons shall proceed in an orderly fashion to the nearest Emergency assembly area. These are located at:

- **Troop Hall (Main assembly area)**
- **Car Park West of Camp Rangers Residence**

Both areas are clearly marked

Refer to map in this folder.

At the assembly areas all personnel will follow the directions of the Emergency Service Personnel, the Camp Rangers or their designate or their individual group leaders.

IF THE SITUATION PERMITS AND IT IS SAFE TO DO SO all personnel should relocate in an orderly fashion to the main assembly area which is the “**Troop Hall**”. All personnel shall remain at the assembly area until advised.

NOTIFICATION OF EMERGENCIES TO SCOUTS VICTORIA

Incidents involving loss of life, serious injury, property loss or lost or missing persons must be reported immediately to the Assistant Chief Commissioner. Monday to Friday between the hours of 08:30 am to 5:00 pm serious incidents should be reported directly to the Executive director at the Victorian Scout Centre. After hours and including weekends a mobile phone number is available.

For contact numbers see section 1 pages 8, 9.

RETURN TO NORMAL

All personnel will return to normal duties following the “All Clear” being advised by the Emergency Services, the Camp Ranger or their representative. This decision will be made by the Camp Ranger or their representative after consultation with the emergency services or when it is safe to do so if the emergency services have not attended.

RECOVERY AND RESTORATION PROCESS

The last stage of emergency management is the restoration of normal operations after the event. This involves resuming full services and evaluating the response process and includes: -

Damage Assessment

ECO personnel in conjunction with other services/agencies will assist with operations for the assessment of damage to plant, structures, equipment, materials and the environment.

Containment, Clean Up and Disposal

ECO personnel in conjunction with other services/agencies will assist with operations for the containment/clean up and disposal of spills and releases of hazardous materials having regard to State/Federal regulations.

Restoration

ECO personnel in conjunction with other services/agencies and management will assist with the restoration of services etc to safely resume normal operations.

Incident Documentation

ECO personnel will assist with any investigation to determine cause[s] of an incident. Recommendations should be made on corrective measures to prevent future occurrences. Response activities should be assessed to determine if they were effective and whether revisions to the plan are necessary.

Incident Audit Procedure

An Incident audit procedure will be initiated following a serious incident and an audit panel may be appointed on the recommendation of the Assistant Chief Commissioner.

REVIEWING AND MONITORING PERFORMANCE

This plan will be reviewed annually and/or post events by the Emergency Planning Committee for both the performance of the processes and treatments. The review should address:

- Simplicity
- Flexibility
- Relevance

The ECO will meet at least twice a year and within 5 working days of any drill or emergency.

Pandemic [refer to pandemic management plan as provided by Scouts Victoria]

A comprehensive pandemic management plan has been provided by Scouts Victoria and should be acted upon as a standalone document.

In the first instance of becoming aware of possible pandemic [Covid 19 infection] isolate and communicate situation to authorities via senior camp ranger via 000 emergency call.

Consult pandemic management plan.

Maintain physical distance until authority is on scene. Any contact by Camp Rangers during visit would need to be considered and acted upon. [Self-isolation and medical test] .

“Fire in a Camp Building”

In the event of a fire in a camp building Emergency Control Personnel should –

- Alert all persons nearby and request assistance;
- Assist any person in immediate danger (only if safe to do so);
- Call the fire brigade on "000" & notify the Camp Ranger;
- Ensure the camp Emergency Warning Signal is activated;
- Close any doors on the fire to contain the spread (only if safe to do so);
- Check that all areas have been cleared & inform the Camp Ranger;
- Extinguish the fire (only if safe to do so);
- Assist with the control and movement of camp occupants to the Evacuation Assembly Area;
- Attend the emergency control location [Troop Hall or Rangers Office];
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Ensure that all communications/actions are being recorded;
- On arrival of the emergency services act on the senior emergency service officer's instructions;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- Remain at the Evacuation Assembly Area until advised by emergency services;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Wildfire/Grass/Scrub fire”

In the event of a Grass / Scrub / Wildfire Emergency Control Personnel should –

- Alert all persons nearby and request assistance;
- Assist any person in immediate danger (only if safe to do so); □ Contact the Fire Brigade by Phoning **000** & notify the Camp Ranger; □ Ensure the camp Emergency Warning Signal is activated;
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Attend the emergency control location [Troop Hall or Rangers Office];
- Ensured that the logging of any communications/actions that are taking place are been recorded;
- Ensure that all groups have activated their emergency plans if required;
- If safe to do so, advise all groups to relocate to the “Troop Hall” Emergency Assembly area;
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- On arrival of the emergency services act on the senior emergency service officer’s instructions. Brief emergency services on the type, scope and location of the emergency, and on the status of any evacuation (including location/number of campers);
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- Remain at the Evacuation Assembly Area until advised by emergency services;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Hazardous Materials Incident”

NOTE: - The spill may give off toxic fumes, be corrosive (acid or alkali) or be a flammable liquid.

In the event of a Hazardous Materials spill Emergency Control Personnel should –

- Alert all persons nearby and request assistance;
- Assist any person in immediate danger (only if safe to do so);
- Call the fire brigade on "000" providing as much information about the hazardous material as possible;
- Ensure the Camp Ranger is notified;
- Ensure the camp Emergency Warning Signal is activated;
- Turn off any air conditioning and recirculation fans - ventilate to the open air if possible;
- Remove any ignition sources;
- Under instruction from the Camp Ranger notify any persons in the building/area to evacuate, (ensure Evacuation Assembly Area is upwind and at least 200 metres clear of spill location);
- Do not attempt to re-enter the affected area;
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- Attend the emergency control location [Troop Hall or Rangers Office] ;
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Ensure that all communications/actions are being recorded;
- Remain at the Evacuation Assembly Area until advised by emergency services;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Gas Leakage”

In the event of a Gas Leak Emergency Control Personnel should –

- Alert all persons nearby and request assistance;
- Assist any person in immediate danger (only if safe to do so);
- Call the fire brigade on "000" & notify the Camp Ranger;
- Isolate the gas supply at the source (if safe to do so);
- Shut down any air conditioning to prevent the spread of any flammable and/or toxic gases;
- Remove all ignition sources (if safe to do so). Turn off the electrical supply;
- Notify any persons in the building/area to evacuate, under instruction from the Camp Ranger, (ensure Evacuation Assembly Area is upwind and at least 200 metres clear of gas leak);
- Do not attempt to re-enter the affected area;
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- Attend the emergency control location [Troop Hall or Rangers Office];
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Ensure that all communications/actions are being recorded;
- Remain at the Evacuation Assembly Area until advised by emergency services;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Personal Threat / Civil Disturbance”

In the event of a threat to Personal Safety / Civil Disturbance (may include unknown persons on site, suspicious activity etc) Emergency Control Personnel should –

- Ensure the Camp Ranger is notified immediately;
- Notify the police by dialling "000" and requesting assistance;
- Do not do or say anything that may encourage irrational behaviour;
- Alert any other emergency control personnel in your vicinity;
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Ensure that all communications/actions are being recorded.

Initiate action to: -

- Restrict entry to the building/area if possible;
- Confine or isolate the presence from building/area occupants;
- Report to the Camp Ranger regularly regarding the status of the occupants/areas safety;
- Evacuation should be considered (only if safe to do so);
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- Attend the emergency control location (if at the Troop Hall ensure phone line is diverted);
- Remain at the Evacuation Assembly Area until advised by Police;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- Ensure Scout Association of Victoria has been advised of incident;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association Victoria procedures;
- Refer all Media enquiries to Scout Association of Victoria

“Lost / Missing Camper”

In the event of a lost or missing camper Emergency Control Personnel should –

- Ensure the Camp Ranger is notified immediately;
- Verify the situation by consulting with group leader, teacher etc.;
- Establish last seen location of missing person, description including clothing, footwear, physical/mental state, any special requirements (medical);
- Notify the police by dialling "000" and requesting assistance;
- Contact all groups in the camp and ensure all other persons are accounted for;
- Ensure that all communications/actions are being recorded;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- Commence search of all camp buildings and immediate surrounds if possible using available staff.
- Brief emergency services upon arrival of the situation and of the status of any search that has been conducted and act on the senior emergency service officer’s instructions;
- Supply emergency services with any information, maps they require;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Bomb Threat”

In the event of receiving a telephone bomb threat:

The recipient of the call should keep the caller talking (do not hang up at any time) and note as many details as possible on the Bomb Threat Checklist.

Important details include –

- Exact wording of the threat;
- Location of the device;
- Time of detonation;
- Sex and other details of the caller, such as estimated age;
- Details of speech, accent, delivery, and background noises;
- Complete 80mb Threat Checklist (**DO NOT HANG UP THE PHONE**);
- Notify the emergency control personnel who will notify the Police by dialling "000";
- Do not do or say anything that may encourage irrational behaviour.

IF A SUSPECTED EXPLOSIVE DEVICE IS FOUND:

- 1. Do not touch.**
- 2. Clear the area.**
- 3. Notify emergency control personnel immediately.**
- 4. Follow the directions given.**
- 5. Prevent all persons from entering the area where the device is located.**

“Bomb Threats (continued)”

- If a suspicious object is found, or if the wording of the threat identified a particular place, then the decision to evacuate may be exercised;
- Emergency Control Personnel to select location of Evacuation Assembly area based on information received i.e. possible bomb location, safe area etc.;
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- Attend the emergency control location [Troop Hall or Rangers Office];
- Ensure communications have been established with all groups currently in the camp and they have been advised of the situation;
- Ensure that all communications/actions are being recorded;
- Brief emergency services upon arrival of the situation and of the status of any search that has been conducted and act on the senior emergency service officer’s instructions;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- Remain at the Evacuation Assembly Area until advised by emergency services;
- On declaration of the “All Clear” give the authority for personnel to disperse from Emergency Assembly areas and resume normal operations;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Severe Storms/ Flood”

In the event of a flood or severe storm Emergency Control Personnel should –

- Store or secure all loose items external to the building, such as outdoor furniture, etc;
- Secure all windows (closing curtains/blinds) and external doors;
- Tape windows and glass entrances, and protect them with boards and sand bags (if necessary);
- Isolate/shut off electricity, water, and gas services;
- Protect valuables, disconnect electrical equipment, and cover and/or move it away from windows;
- Attend the emergency control location [Troop Hall or Rangers Office];
- Ensure communications have been established with all groups currently in the camp and advise them to relocate to the Evacuation Assembly Area;
- Ensure that all communications/actions are being recorded;
- Assess status of all groups in the camp re injuries, lost personnel etc;
- Assist with the control of movement of camp occupants to the Evacuation Assembly Area;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- During a severe storm remain in the building, keeping the occupants away from windows;
- After the storm, evaluate the need to evacuate if uncontrolled fires, gas leaks or structural damage has occurred as a result of the storm;
- Report to the Camp Ranger regarding the status of the occupant's safety;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

“Medical Emergency”

In the event of required medical assistance personnel should –

- Check for any life-threatening situation and remove or control it (if safe to do so);
- Defibrillator is located at top of ramp at Camp Rangers Office. If required, send for this;
- Remain with the casualty and provide appropriate support;
- Notify the Camp Ranger;
- Notify the ambulance service by dialling "000";
- Ensure appropriate medical assistance is provided to the level of the available first aiders training;
- Designate someone to meet the ambulance and direct it to the location of the casualty;
- Ensure that all communications/actions are being recorded;
- Meet emergency services upon arrival and brief personnel as required;
- Assist Emergency Services as required;
- Ensure Scout Association of Victoria has been advised of incident;
- Refer all Media enquiries to Scout Association of Victoria;
- On completion of the incident ensure all actions/communications have been recorded as per Scout Association of Victoria procedures.

NOTE: -

- 1. Provide support and appropriate assistance to the casualty and the first aider.**
- 2. Do not move a casualty unless they are exposed to a life-threatening situation.**

ATTACHMENT 1 – FIRST AID TRAINED PERSONNEL

The following are personnel trained in first aid at the Eumeralla Scout Camp.

Name	Qualification
Rob Benney	Level 2 first aid, defib
Tiffany Lloyd	Level 2 first aid, defib
Bryce Hutton	Level 2 first aid, defib
Annette Hutton	Level 2 first aid, defib

MSDS Number	Substance Name
	Refer MSDS booklets available in buildings

ROLES AND DUTIES OF EUMERALLA CAMP PERSONNEL

At the time of any emergency the Senior Camp Ranger will take control of that emergency. In their absence, the Deputy Camp Ranger will then assume control of the emergency. Leaders of individual units/groups staying in the camp shall be responsible for people in their own individual group. However, ALL personnel on site at Eumeralla, either Eumeralla Staff or visitor at the time of an emergency shall follow the direction of the most Senior Camp Ranger in charge or most senior Emergency Service Officer.

It is also the role of Senior Camp Ranger or in their absence the Assistant Camp Ranger to;

During periods of hot dry conditions or on days of Severe, Extreme or Code Red, Rangers shall monitor Bureau of Meteorology web site on forecast conditions and for any community warnings transmitted on the CFA website or phone app. All relevant information is to be passed on to group leaders, staff visitors and contractors via phone call or face to face. Text can be used *providing a response is received*. Advise group of actions to be taken, if any. Enforce evacuation procedure if FDI [Fire Danger index] reaches a rating of 60 FDI, using the table below as a guide;

Fire Danger Rating Trigger Actions

Based on the Fire Danger Rating, the **Leader in Charge** of an activity or **campsite** should implement the following trigger actions for activities or campsites within a Bushfire Prone Area:

Fire Danger Rating	Leader in Charge of an activity or campsite
Catastrophic	<p>Activities – cancel the activity, leave the night before or first thing in the morning</p> <p>Campsites are closed for visitors / hirers – all camp occupiers to leave the night before or first thing in the morning</p>
Extreme	<p>Interim Advice</p> <p>Activities - cancel, reschedule, or relocate an outdoor activity in a bushfire prone zone unless:</p> <ul style="list-style-type: none"> • the Leader in Charge has two-way communication with all participants • the activity is no further than 30 minutes from a safe location • weather conditions are continuously monitored • the program is adapted to suit the conditions • an evacuation and/or shelter-in-place plan is in place and considers travel through bushfire risk areas • sufficient transport is available to relocate or evacuate the area if required <p>Campsites should close for visitors / hirers unless there is an approved Emergency Management Plan that describes the conditions under which the campsite can remain open, and considers:</p> <ul style="list-style-type: none"> • Weather conditions at campsite vs fire district • Fuel type and fuel load at and surrounding the campsite • Type of visitors / hirers and activities • Distance to safe place • Ability to evacuate or shelter-in-place <p>Seek advice and approval from State Commissioner – Risk and Safety</p>
High	<ul style="list-style-type: none"> • Consider rescheduling or relocating the activity • Adapt the program to suit the conditions • Implement a plan for regular communication with remote participants • Monitor weather conditions throughout the activity • Be alert for fires in your area. • Decide what you will do if a fire starts
Moderate	<ul style="list-style-type: none"> • Stay up to date and be ready to act if there is a fire • Monitor weather conditions throughout the activity
No Rating	<ul style="list-style-type: none"> • Standard principles apply
